

## Technical Datasheet

# LA-40

## Multi-purpose, special spray oil

### Description

Special spray oil for multiple uses and applications.

It combines 6 features in one product:

- Dissolves rust,
- Repels moisture,
- Lubricates,
- Restores conductive connections,
- Cleans surfaces from persistent pollutants and
- Prevents corrosion.

It is highly effective due to its ability to penetrate in depth. It stops creaking, restores the mobility between rusty connections and enables their dismantlement.

### Fields of application

LA-40 has numerous fields of application, related to cleaning, lubricating, protecting and dismantling of rusty screws, springs, chains, locks, valves, joints and generally metal mechanisms.

### Technical data

Form:	liquid
Color:	brown
Base:	mineral oil

### Directions for use

LA-40 is sprayed, is left to act and the excessive material is removed with a clean, soft cloth. If necessary, the above procedure is repeated. For better results, when this is possible, first remove mechanically (e.g. by rubbing) the rust or pollutants from the application surfaces.

### Consumption

Depending on the application.

### Packaging

LA-40 is available in 400 ml containers.

### Shelf-life - Storage

24 months from production date, if stored in cool, well ventilated spaces, protected from sun exposure and high temperatures. Do not expose to temperatures exceeding +50°C and do not store with materials that cause oxidation or corrosion.

### Remarks

Consult the directions for safe use and precautions written on the package.
